

Hey, Craig Sigl here, the No-practice expert. Did you see that headline there? It's the absolute truth from about 8 years ago.

These video trainings are about how to destroy that huge block that keeps you from bringing your great practice game over to the course.

These strategies are about you playing robotically consistent by tapping into your "Oscar Perfect" as Alex J. Morrison said in his book "Better Golf Without Practice"

Every round, you have a few great holes right? If you use these methods, the techniques will double the amount of those great holes and none of it requires any practice.

I've given you a lot in these training videos.

So many people have written to me and my partners about how just one of the ideas on the videos has made dramatic improvements in their game. Like this one on the training video:

Listen, it's high time for you to REALLY make some massive improvement in your game...WITHOUT PRACTICE. You know, I've been teaching no-practice techniques for years now and there's still some who are missing important pieces.

What's the solution? What if I told you that I will do it all for you?

What if you could have me as your guide every step of the way helping you at every turn and doing it with maximum potency and efficiency?

What if it could be so easy that all you have to do is to kick back for a few minutes at a time in your easy chair and then let me assist you to effectively communicate to your inner consistent golfer?

That's what I have to offer you here now. Today and for the next 5 days only, I am offering you my complete "Without Practice" program where I DO IT ALL FOR YOU!

Remember the formula?

TARGET+CONNECTION+DIRECTION+TRUST = Unconscious Consistent Golf Results

The logic is undeniable, the results of the formula are proven and now, you can have ME do the work for you so that it happens completely effortlessly on your part.

(show me holding the real book)

You know what, as good as this sounds I'm going to make this without practice even better. Because I'm going to throw in the digital version of my new book that hasn't even come out yet. It's the follow-up to Break 80 Without Practice and it's called:

"Break 80! 52 Ways to lower your score without practice"

I'm going to be promoting this book later this year and you cannot buy it right now except through this offer. What the heck, I'm throwing it in for you. Whenever you have a moment, there's 52 short chapters on what you can do to improve your game. Feel free to print it out and stuff it in your golf bag if you like. The value of this might just be priceless to you since you can't buy it anywhere. One chapter alone could be your ticket to lower scores!

Totaling this all up I sell these products separately for \$750.20! These are not inflated numbers like you see in other offers, I really do or will sell these other products at these prices every day.

Go ahead and click one of the Orange Add to Cart buttons right now and you can start improving your game right away. You will get

instant access to the member portal. This offer will only be up for the next 5 days. You have 60 days to try it out. If for any reason you don't think it's worth twice the money, just email and you'll get your money back...guaranteed!

So Don't wait to come back after that, it won't be here. You don't want to miss out on this rare opportunity. I'm giving you everything I've got and have ever learned.

This program and system, "Without Practice" includes every scrap of information I have gathered for the last 6 years on improving your game without practice. Everything has been tweaked, tested, tried and true and I'm finally ready to unveil it to a limited group of golfers.

Right now is the perfect time for you to be working on your game from the comfort of your home no matter what the weather is! AND, you can download everything onto your ipod or smartphone if you want.

What does all of this mean to you? Well it means that you can stop spending money on new equipment and swing gadgets and start to really enjoy playing again!

It means that you can quit beating yourself up for not practicing and then stinking it up on the course each week.

It means that you can finally get that repeatable swing! That you can face those putts and get that feeling like you know it's going in.

You can follow my lead and I will show you the exact same methods that I used to get myself down to a 5 handicap, having a 1-under par round and a hole-in-one....ALL WITHOUT PRACTICING while I was working a 60 hour a week job with 2 little kids and a wife.

Go ahead and click one of the Orange Add to Cart buttons right now and you can start improving your game today, in cushy comfort and save over \$500 from the normal price these products sell for separately.

I want to make a point here. If you are currently taking lessons or you CAN practice, my methods will make them twice as powerful and you'll get lower scores even FASTER! Everything you learn from me will fit very nicely with what your instructor is teaching you. It will make him or her look like a miracle worker. Please give your pro the credit for your lower scores, I don't want it. I'm not interested in being anybody's guru.

The testimonials golfers write to my email and on my blogs are all the thanks I need. I JUST

want you to score lower and I'm fanatical about that.

So if you think that I have some "special talents" or something like that, think again, this works for everyone. Here's just a small sampling of real golfers who have written to me:

(scrolling testimonial page with highlights of some key results while I keep talking <http://www.break80golf.com/testimonials/>)

Here's the crazy thing about all of this...I routinely get comments that golfers are scoring lower...and they don't know why. I just love that!

They can't really pinpoint what happened. It all seemed too easy. You see, I have learned a few very important principles about what it takes to teach directly to your unconscious consistent golfer self. Everything I do is with this intention. You don't have to do anything but watch and listen from your bed, easy chair, or while doing something else like going for a walk or doing the dishes...whatever!

In fact, you can't screw it up with my guidance either. The only way you won't get huge score-lowering benefits is if you don't watch and listen...that's all there is to it...and there's

nothing else to do! There's no practicing, there's no new equipment required...no range balls to hit...no drills you have to do...and you don't need any special skills or abilities...it can't get any easier or simpler! I guarantee it!

The only skill you need is to be able to click a mouse on your computer screen to start playing consistent, unconscious golf.

You might be thinking right now that this all seems too good to be true right? How can this be? Can I really get better without practicing? Well, that's why I made those first 3 training videos so that you could get a small taste of it to try for yourself and check out the logic behind it all before this video. If you watched the other videos, you know that the formula makes perfect sense.

Listen, if you don't take me up on this offer and want to do it yourself, that's awesome! You will have a bit of a learning curve and I hope it doesn't take you years like it took for me.

Myself, I feel sick to my stomach when I think about how much money and time I wasted on worthless gimmicks and gadgets that got me nowhere and how many bets I lost with my buddies during those 20 years of struggling.

Ugggh! I wish I had those years back to golf like I do now.

I think golfers have to be totally brainwashed by the golf industry to not take me up on this offer. I'm sorry, I know that's harsh but I firmly believe that this is the future of golf score improvement and I'm not the only instructor on this track. That's another reason why this offer is only going to be here for 5 days. I want to keep this an exclusive little community because I'm going to be active in it and I can only handle so many golfer, so you'd better act now while you can.

You won't see this offer in any online ads. You won't see it in magazines. It's only being offered to a few select golf instructor partners of mine **FOR 5 DAYS ONLY so that I can control how many people get access to this. Good for you for following one of my partner instructors whom I trust and believe in.**

The plan is to sell each of these sessions and the other products in an online store separately but I'm offering to you, right now and for the next 5 days only, as a marketing test, **EVERYTHING I'VE GOT for a ridiculously low price compared to the normal price of \$750.20**

How much should you pay for the product that finally gets you to a consistent swing and a cocky putting game?... All without practice

Before you answer, I want you to look back on the money you've spent already on golf equipment and products that have done you very little to actually lowering your score. Did that driver you spent a couple hundred bucks or more lower you handicap?

What's it worth to not have to spend hundreds of hours practicing and still improve? How much is your time worth? I charge \$200 a session to see me in my office so that's what my time is worth. Even if you're retired, your golden years are now priceless! You don't get them back and the clock is ticking.

Click the Orange Add to Cart button right now and start improving your game in the comfort of your home.
